

Chapter/Affinity Group: UK&I PES chapter

Reported by: Chapter Chair

Key Achievements and member value/services

- Submission of Outstanding Chapter Award application for our performance in 2019 (April 2020).
- IEEE PES Day online event “Benefits of joining the IEEE Power and Energy Society”, 22/04/2020.
- DLP talk by Prof. Dragan Jovicic “DC Transmission Grids: Components, Modelling, Control and Protection Challenges”, 13/02/2020, University of Southampton.
- Seminar by James Naughton, A Modelling Framework for Multi-Energy, Multi-Service Virtual Power Plants, 18 Feb 2020
- Seminar by Dr Cheng Zhong, A Suboptimal Power-Point-Tracking-based Frequency Regulation Strategy for PV System, 18 Jan 2020

Current plan of activities

- Most planned physical events are currently postponed/cancelled.
- Considering the potential to introduce an award for outstanding chapter student volunteer in UK&I.
- PES UK&I to support an online event run by Norwegian PES chapter on HVDC link connection between Norway/UK.
- Ongoing activity on application to deliver automated suggestions for news articles related to PES.

Focus areas (2020-2021)

Goals	KPIs	Challenges to reach KPIs/ Resources
Technical webinars	Number and quality	New format of running events
Online DLPs	Number and quality	New format of running events
Online events	Number and quality	New format of running events
